TreatmentInstruction

## General information

---

Name: **TreatmentInstruction**

Version: **1.0**

Publication date: **02-10-2017**

Status wikipage: **final**

This FHIR profile is based on version 1.0.1 (<https://decor.nictiz.nl/art-decor/decor-datasets--zib1bbr-?id=2.16.840.1.113883.2.4.3.11.60.40.3.2.1&effectiveDate=2015-04-01T00%3A00%3A00&conceptId=&conceptEffectiveDate=>) of the building block TreatmentInstruction. The latest version of this building block can be found here on the wiki ([https://zibs.nl/wiki/HCIM\\_Mainpage](https://zibs.nl/wiki/HCIM_Mainpage)).

## Concept

---

A treatment instruction includes an agreed constraint in the treatment based on the oral or written living will of the patient.

## Purpose

---

A good overview of treatment instructions based on the wishes of the patient or their authorized representative on (un)desired treatments is important in a patient's care. A concise, orderly list is of particular importance in acute care situations. Due to the large variety of symptoms, the situation concerns not only a CPR setting, but also cases in which the patient's condition rapidly worsens as a result of existing symptoms. A healthcare provider consulting this information can discuss these existing treatment instructions with the patient, the patient's family or the patient's authorized representative and possibly include the instructions in their policy.
